

### Material:

#### Metal Structure:

- (1) Thickness according to international standards: galvanized steel posts 2.5mm or 2mm thick, with strong intensity and safety
- (2) Surface treatment: anti slip surface, electrostatic spray, with galvanized steel pipe for substrate. Non-toxic heat treatment and surface electrostatic powder painting. Zinc plating and powder coating

#### Fixings:

Stainless steel, AISI-304

#### Plastic:

LLDPE, Linear low-density polyethylene, thickness of 6-10mm

### Product Specifications:

**Model Number:** FSP04

**Dimension:** 340x200x200cm

**Fall Height:** 200cm

**Post Diameter:** 4.5" or 3.5" post

**Product Type:** Swing Sets
