

Material:

Metal Structure:

- (1) Thickness according to international standards: galvanized steel posts 2.5mm thick, with strong intensity and safety
- (2) Surface treatment: anti slip surface, electrostatic spray, with galvanized steel pipe for substrate. Non-toxic heat treatment and surface electrostatic powder painting. Zinc plating and powder coating

Fixings:

Stainless steel, AISI-304

Plastic :

LLDPE, Linear low-density polyethylene, thickness of 6-10mm

Product Specifications:

Model Number: FSP49

Dimension: 140x135x200cm

Age Range: 2-12 Years
