

Material:

Metal Structure:

- (1) Thickness according to international standards: galvanized steel posts 2.5mm thick, with strong intensity and safety
- (2) Surface treatment: anti slip surface, electrostatic spray, with galvanized steel pipe for substrate. Non-toxic heat treatment and surface electrostatic powder painting. Zinc plating and powder coating

Fixings: Stainless steel, AISI-304

Handles: Thermoplastic rubber

Seats / Trims: HDPE rotomoulded with 6-10mm thickness.

Pedals / Plugs: PP

Product Specifications:

Model Number: OF21

Product Description: Accessible Leg Trainer

Dimension: 99x55x144cm

Age Range: 13 Years +

Capacity: 2

Muscle Group: Legs

Product Type: Outdoor Fitness
