

Material:

Metal Structure:

- (1) Thickness according to international standards: galvanized steel posts 2.5mm or 2mm thick, with strong intensity and safety
- (2) Surface treatment: anti slip surface, electrostatic spray, with galvanized steel pipe for substrate. Non-toxic heat treatment and surface electrostatic powder painting. Zinc plating and powder coating

Fixings:

Stainless steel, AISI-304

Product Specifications:

Model Number: SF01

Dimension: 180x30x50cm

Product Type: Site Furnishings
