

**Material:**

**Metal Structure:**

- (1) Thickness according to international standards: galvanized steel posts 2.5mm or 2mm thick, with strong intensity and safety
- (2) Surface treatment: anti slip surface, electrostatic spray, with galvanized steel pipe for substrate. Non-toxic heat treatment and surface electrostatic powder painting. Zinc plating and powder coating

**Fixings:**

Stainless steel, AISI-304

**Product Specifications:**

**Model Number:** SF02

**Dimension:** 180x60x90cm

**Product Type:** Site Furnishings
